Its nature is the nature of everything!

My nature is the nature of everything!

The study on nature is called as science!

My nature is the nature of everything...

I have divisibility, and

I find it everywhere in everything!

I have comparability, and

I find it everywhere in everything!

I have connectivity, and

I find it everywhere in everything!

I have sensitivity, and

I find it everywhere in everything!

I have transformability, and

I find it everywhere in everything!

I have substitutability, and

I find it everywhere in everything!

I have satisfiability, and

I find it everywhere in everything!

I find my nature everywhere in everything,

My nature is the nature of everything!

What will you do if nothing has divisibility?

What would your knowledge be if nothing has divisibility?
